

CS 100 - P33 - Project Presentation Rubric

Presentation Content Evaluation

	0 - missing	1 - poor	2 - satisfactory	3 - superb
What is the problem statement?				
Explain the process your team went through to develop your solution.				
What is your team's proposed solution?				
Truthfully discuss the team dynamics and what you would do differently on a future project.				
What did you learn from the P33 Project?				

Communication - Understand the standards of professional communication used within the profession. Be able to communicate, understand, and respond in a discipline specific fashion.

	0	1	2	3
Organization	Audience cannot understand presentation because of poor organization	Audience has difficulty following presentation because of some abrupt jumps	Satisfactory organization	Superb organization
Mechanics	Errors on slides	Boring slides	Generally good set of slides	Very creative slides;
Delivery	Mumbles the words, audience members in the back can't hear anything	Low voice, occasionally inaudible	Clear voice, generally effective delivery	Natural, confident delivery that does not just convey the message but enhances it
Relating to audience	Reads most of the presentation from the slides or notes with no eye contact with audience members	Occasional eye contact with audience but mostly reads the presentation	Generally aware of the audience reactions;	Keeps the audience engaged throughout the presentation
Team participation	Only 1-2 members participate	Less than half of members participate	Almost all members participate	All members participate
